ERIC KNAUER

FRONT-END DEVELOPER

OBJECTIVE

To be part of an innovative design team in the Media/Web/Graphic Arts Industry, where my 9 + years of experience in front-end development, and UI design can be effectively utilized to strengthen, improve, and push both myself and the company to new heights.

SKILLS

• Vast knowledge in HTML5, CSS3, UI design, web standards and trends, adaptive & responsive design, SEO, accessibility, and more. Some experience using frameworks such as Bootstrap3 and Normalize, as well as CSS3 extensions like LESS and SASS.

• Experience in implementing Javascript, jQuery, AJAX, API services, DOM manipulation, and leveraging the use of PHP where appropriate.

• Working knowledge using AngularJS, Node, GIT & GitHub, Grunt, Bower, NPM, Command Line, FTP, WordPress, image manipulation, and translating design comps into pixel perfect (standard) browser compliant code.

• Conceptual thinker – Self-directed, with an attention to detail
• Strong analytical, troubleshooting, and problem solving skills
• Excellent multi-tasking and organization skills
• Work well in teams and fast pace environments
